IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF ARIZONA

Advanced Voice Recognition Systems,
Inc.,

Plaintiff/Counter-Defendant,

vs.

Apple Inc.,

Defendant/Counterclaimant.

No. CV18-2083-PHX-DGC

**ORDER GRANTING STIPULATION
REGARDING CLAIM
CONSTRUCTION**

Having considered the parties' stipulation. Doc. 79.

IT IS ORDERED:

1. The parties' stipulation (Doc. 79) is **granted**. The Court adopts the following constructions of terms in U.S. Patent No. 7,558,730:

Term	Construction
uniform system protocol	A protocol that processes information expressed in a normalized data format.
first protocol	A first group of processes that a User and/or an ASR employs to directly support some business process or transaction and is accessed using a Native Communications Protocol.
second protocol	A second group of processes that a User and/or an ASR employs to directly support some business process or transaction and is accessed using a Native Communications Protocol.

application service adapter	An application layer within the Speech Recognition and Transcription System that provides an interface among Users, Speech Recognition and Transcription Engines, the System Transaction Manager and other system components by allowing a User's existing application and/or a system components application to communicate with the Transaction Manager.
user application service adapter	A specific Application Service Adapter that handles formatting and Routing of Speech Information Requests and Responses to elements of a User's Protocol within the Speech Recognition and Transcription System.
speech information request(s)	Formatted speech, which can be acted upon by system components, including the System Transaction Manager.
response(s) to [the] speech information request(s)	A formatted transcription of formatted speech.
spoken text	Audible words.
system transaction manager	A server application that provides a central interconnect point (hub) and a communications interface among system components and Users having disparate or heterogeneous protocols; and, an information router (or bridge or switch) within the Speech Recognition and Transcription System.
speech recognition and transcription engine	A process running on a computer that recognizes an audio file and transcribes that file to written text to generate a transcription of Speech.

3. The Claim Construction Hearing scheduled for June 21, 2019 is **vacated**.

4. The following deadlines associated with the parties' claim construction briefing are **vacated**:

- Plaintiff's Opening Claim Construction Brief (April 5, 2019);
- Defendant's Responsive Claim Construction Brief (April 26, 2019); and
